Overview

W69 develops custom AI agents that execute tasks, make decisions, and collaborate — from marketing assistants to sales copilots.

01 Marketing Agents

AI agents that generate content, manage social media, and optimize campaigns. Always on-brand, always active.

02 Sales Copilots

Agents that qualify leads, personalize outreach, and automate CRM tasks. Your sales team supercharged.

03 Workflow Agents

Autonomous agents that drive n8n workflows, process data, and execute cross-platform actions without human intervention.

Frequently Asked Questions

What exactly is an AI agent?

An AI agent is an autonomous software system that can execute tasks, make decisions, and communicate with other systems.

Which AI models do you use?

We work with the best models for each use case: OpenAI GPT-4o, Claude by Anthropic, and open-source models where appropriate.

How long does it take to build an AI agent?

A basic AI agent can be operational within 2-3 weeks. More complex multi-agent systems take 4-8 weeks.
