Overview

W69 designs AI-driven growth architectures: from automated funnels to predictive conversion — systems that work for you 24/7.

01 Growth System Design

Design of end-to-end growth architectures with AI-driven funnels, lead capture, and automated follow-up sequences.

02 Conversion Intelligence

AI models that recognize conversion patterns, identify bottlenecks, and optimize automatically.

03 Funnel Automation

Fully automated funnels with smart routing, A/B testing, and dynamic content personalization.

Frequently Asked Questions

What exactly is an AI growth architecture?

An AI growth architecture is an end-to-end system that connects all parts of your growth process: from lead capture and nurturing to conversion and retention.

How long does it take to set up a growth architecture?

A first working system is typically live within 4-6 weeks. We start with core components and expand modularly.

Does this integrate with our existing CRM and marketing tools?

Absolutely. Our growth architectures are built around your existing tech stack, integrating seamlessly with CRM systems and marketing platforms.

Ready to get started?

Get in touch for a no-obligation conversation about the possibilities.
