# Frequently Asked Questions

---

## **How does a content authority system help with AI visibility?**

By systematically publishing high-quality, authoritative content, you increase the chance that AI models cite and recommend your brand.

## **What's the difference between regular content marketing and an authority system?**

An authority system is an integrated ecosystem where each content type reinforces the others and data flows back into AI models.

## **How much content do I need to produce?**

We recommend at least 2-4 in-depth articles per month, supplemented with daily social media content and monthly whitepapers.
